---

## Summary

Experienced Frontend Engineer with a proven track record of creating visually appealing and user-friendly web and mobile applications. Recently completed a Frontend Engineer internship at McGeorge Consulting Ltd, where I played an instrumental role in developing cutting-edge front-end solutions alongside a team of dedicated developers. Proficient in React JS, React Native, JavaScript, TypeScript, HTML5, CSS3, Sass/SCSS, Bootstrap CSS, and Tailwind CSS, I possess a deep understanding of modern web development frameworks and industry best practices. I am committed to staying current with emerging technologies and continuously expanding my skill set. With a background in graphic design, I bring a unique passion for crafting clean, aesthetically pleasing user interfaces. My objective is to develop user-centred, intuitive interfaces that exceed client expectations through high-quality, maintainable code.

---

## Experience

### McGeorge Consulting Ltd.

Frontend Engineer Intern, Ilorin, Kwara

08/2023 - 03/2024

Where I delivered comprehensive frontend solutions and enhanced team productivity by

- Collaborated with designers, product managers, and backend developers to gather requirements and translate business needs into functional, user-centred designs
- Managed code versioning and collaboration through Git, ensuring seamless team workflows and code integrity.
- Built and maintained cross-platform applications for web, iOS, and Android using React.js and React Native frameworks
- Debugged and resolved critical application issues, resulting in improved app stability and enhanced user experience
- Actively participated in code reviews, providing constructive feedback to enhance code quality, maintainability, and team knowledge sharing.

### Zuri Team Inc.

Frontend Developer Intern, Remote, Lagos State

05/2022 - 08/2022

- Developed and maintained responsive, user-friendly web pages utilising HTML5, CSS3, and JavaScript with a focus on cross-browser compatibility
- Implemented responsive design principles and modern CSS techniques to ensure optimal viewing experiences across desktop, tablet, and mobile devices
- Collaborated closely with developers and designers to create interactive, dynamic web applications that enhanced user engagement
- Applied industry best practices including code optimisation, testing methodologies, debugging techniques, and version control management using Git and GitHub
- Successfully delivered multiple client projects including custom landing pages, interactive components, and responsive layouts as assigned by the Zuri Team
- Demonstrated creativity, problem-solving skills, and initiative throughout the internship program.

## Side Hustle

Web Developer Intern, Remote, Lagos State

03/2022 - 06/2022

- Learned and applied HTML5 and CSS3 to create modern and responsive web pages.
- Worked on various task projects for Side Hustle, such as building a landing page and a blog page.

- Followed web development best practices, such as code quality, testing, debugging, and version control using Git and GitHub.
  - Collaborated with other developers and designers using tools like Slack and Figma.
  - Demonstrated initiative, creativity, and problem-solving skills by implementing design changes and fixing web-related issues.
  - Received positive feedback from mentors and peers for delivering high-quality work and meeting deadlines.
-
